**Issued:** Tue May 03, 2022 16:00

Valid Until: further notice

Large Areas of Glacier National Park Are CLOSED For Avalanche Control Using EXPLOSIVES. For access information visit pc.gc.ca/skirogers or call (250) 837-7500

We have concluded our daily avalanche forecasting season. However, avalanche hazards continue well into spring. The Spring Conditions page provides guidance for mountain travel over the coming weeks.

Have a great spring! [CG]

## ▼ Public Avalanche Forecast

## **Spring Conditions: Tuesday**

The avalanche danger is variable and can range from Low to High. Travelling early in the day is recommended, as conditions can change rapidly in short periods of time due to daytime warming. Pay careful attention to the integrity of surface crusts formed overnight and rising air temperatures during the day. Dry slab avalanche danger may also exist during spring snow storms.
